Summer Youth Swim Clinic

What is a swim clinic?

This program is designed to prepare young athletes
for future participation in a competitive swim team
environment. They will develop the fundamentals of
the four competitive strokes and learn essential race
skills including block starts and flip turns. Participants
will also be familiarized with typical swim practice
structure and etiquette.

Participants should at a minimum be able to enter
water over their head and return to the surface, tread
or float for one minute and exit the pool unassisted.
More experienced swimmers are also welcome to
join up and will receive technique instruction
appropriate to their level.
